iOS & AppleWatch Developer Resume

Profile

- ✓ Wanna be proud of being worked on such app that helps people or make things appear easier.
- ✓ Very **ready** to write iOS 11 & AppleWatch OS 4 apps in **Swift 4** and use the latest techniques.
- ✓ January 2013 ago, and up till now, worked on six iOS SDKs (iOS 6 – iOS 11) and willing to work on iOS 12 that Apple will introduce in next June.

Professional Experience:

Sept, 2016 – Up till now iOS Developer (Swift & Objective C)
at **HungerStation** (DeliveryHero's company)
May, 2016 – August, 2016 iOS Developer (Swift & Objective C)
at **ALNapedh**
Oct., 2015 – Apr., 2016 Software Engineer at The Egyptian
Mineral Resources Authority (EMRA).
July, 2015 – Sep., 2015 iOS & Apple Watch Developer
(Swift & Objective C) at Nile Design Co.
May, 2014 – May, 2015 iOS Developer (Objective C & Swift)
at UK Pro. Solutions Ltd.

Practical Skills (iOS)

iOS (Generally)

- ✓ January 2013 ago, and up till now, I'm writing iOS apps.
- ✓ Perfect working in a Scrum environment (JIRA).
- ✓ Experience in uploading apps on App Store via FastLane and TestFlight.
- ✓ Strong understanding for iOS Provisioning Portal phases (provisioning profiles, certificates Dev and Distribution, App IDs, device provisioning, AppGroup).
- ✓ Perfect using Git & Source Control e.g., Github, BitBucket, GitLab.
- ✓ Solid experience in Firebase, CocoaPods, Twitter (Fabric), FB and G+ SDKs.
- ✓ Perfect Auto-Layout, Size Classes and **Auto-resizing** to design universal apps compatible with iPhone device sizes (5/5s, 6/6+, 6s/6s+, 7/7+, 8/8+, X) & iPad sizes.
- ✓ Solid Experience in dealing with Marketing tools e.g, (AppBoy, Adjust & GA).
- ✓ Perfect UIKit, MapKit, CoreData, AVFoundation, StoreKit frameworks.
- ✓ Very familiar with Remote Notifications via APNS & Core Data.
- ✓ Perfect parsing JSON/XML responses via (AFNetworking)
using EVReflection, Moya and Alamofire,.. third-party libs.
- ✓ August 2014 ago, and up till now, I'm writing apps in Swift.

Apple Watch [Self Study]

- ✓ July 2015 ago, and up till now I'm learning, writing apps for WatchKit e.g, (TaQs[Weather] app on WatchOS 1 and TweetMe on WatchOS 2).
- ✓ Read and implement demos in these books [Learn WatchKit For iOS](#), [Apple Watch For Developers](#), [Swift Development For The Apple Watch](#).
- ✓ All these techniques, I used in my AppleWatch apps and very familiar with: Glances, AppGroups, Short-Look/Long-Look Notifications, Complications, WCSSession framework, Hand-Off, Darwin Bridge Notifications, WatchOS1, 2,3.

Sept., 2009 – July, 2013

Academic Experience

Programming Skills:

- ✓ iOS Programming [Swift 4, Objective-C].
- ✓ Desktop Development [Java, C++, C, C# and OpenGL].
- ✓ Web Development [PHP, HTML, CSS and JavaScript].

DB Development:

- ✓ SQLite, MySQL, SQL, Microsoft Access, Distributed Databases.

Tools & Software:

- ✓ Xcode, XAMPP, Eclipse, Charles, Microsoft SQL Server 2008/2010, AppServ, ArcGIS, 3D Max 2010, Tracking Time, Modelio
- Microsoft Visual Studio 2010/2013, SmartDraw, GIMP.

Non-Programming Skills:

- ✓ System Analysis & Design Principles.
- ✓ Computer Networks, Graphics Concepts.
- ✓ Data Mining Principles, Operating Systems Principles.
- ✓ Software Engineering, Geographical Information Systems [GIS]
- ✓ Mobile Computing Principles, IT Project Management Concepts.

Awards:

- ✓ Exceed The Egyptian Software Testing Qualification Board (ESTQB) Exam and got **Foundation Level Certificate**.

iOS Apps

[For each app, I prepared either a portfolio (HTML page) describe app features or a gallery of screenshots for the app. Portfolios design inspired from Apple marketing web pages].
