Senior **iOS Tech Lead** with **12+ years** leading mobile teams and architecting scalable iOS applications. Expert in modern SwiftUI, team leadership, and shipping high-performance apps used by millions across the MENA region — with proven range to architect full-stack systems end-to-end, including a production-grade ride-hailing platform built from scratch spanning a SwiftUI client and a hardened NestJS / PostgreSQL backend.

---

Aug 2019 – Present

CURRENT

RIYADH, KSA

## iOS Architect

Marn – Jahez Group ↗

- Lead and mentor an iOS team of 5+ developers building enterprise POS solutions.
- Architect offline-first systems with CoreData and seamless cloud sync, serving 20k+ restaurants and cafés.
- Design sophisticated table management, order processing, and inventory tracking systems.
- Spearhead the migration to SwiftUI and modern practices (Combine, async/await).
- Optimised performance for 40% faster load times and a 99.8-99.9% crash-free rate.
- Established CI/CD pipelines and automated testing, cutting deployment time by 60%.

---

Dec 2025 – Present

CURRENT

## iOS Architect

HaramBlur ↗

- Designed an architecture integrating on-device machine learning for real-time content analysis.
- Built a seamless communication layer between native iOS and web-based content.
- Implemented efficient image processing with region-based and full-image blur effects.
- Created a real-time video monitoring system for continuous content filtering.
- Developed smart banner blocking and optimised memory management throughout.

---

2025 – Present

INDEPENDENT

## Full-Stack Architect — iOS & Backend

Ride-Hailing Platform · Independent Project

- Architected a production-grade ride-hailing platform from scratch end-to-end — SwiftUI client paired with a NestJS / TypeScript backend, PostgreSQL (TypeORM migrations), and Redis.
  - Designed stateless auth with JWT access/refresh tokens, OTP phone verification via Twilio, Passport strategies, and multi-device session management.
  - Hardened for production: Helmet headers, multi-tier rate limiting, a global idempotency interceptor for safe retries, and centralized exception filters.
  - Built an append-only audit-logging subsystem for compliance and traceability of sensitive operations.
  - Delivered scheduled background services for session expiry, OTP cleanup, and soft-deleted account purging.
  - Documented the API with Swagger/OpenAPI and shipped a full Jest unit + e2e suite with CI-ready coverage.
-

Mar 2018 – May 2019

RIYADH, KSA

## Senior iOS & Apple Watch Developer

Ego – The Ride Hailing App ↗

- Developed a comprehensive ride-hailing ecosystem (iOS, watchOS) serving 15M+ users in Saudi Arabia.
- Implemented real-time GPS tracking and navigation with MapKit and optimised route algorithms.
- Integrated Apple Pay, HyperPay, and push-notification infrastructure.
- Created seamless iPhone ↔ Apple Watch handoff for continuous ride tracking.
- Built the driver rating system and real-time fare calculation engine.

Sep 2016 – Mar 2018

KSA

## Senior iOS Developer

HungerStation – DeliveryHero Group ↗

- Contributed to a major food-delivery platform serving 20M+ users.
- Optimised app performance for high-volume transaction processing.
- Implemented real-time order tracking and delivery optimisation.
- Collaborated with backend teams on API design and integration.

May 2016 – Aug 2016

## iOS Developer

ALNapedh ↗

- Developed food-ordering apps with Firebase integration and real-time features.
- Implemented Spreedly payments and live-chat functionality.
- Built responsive UI with Auto Layout across multiple device sizes.

Jul 2015 – Sep 2015

## iOS & Apple Watch Developer

Nile Design Co. ↗

- Early adopter of Apple Watch development (watchOS 1-2).
- Built a foundation in iOS and watchOS app development.
- Adopted SwiftUI from WWDC 2019 onward.

May 2014 – May 2015

## iOS Developer

UK Pro. Solutions Ltd. ↗

- Foundation iOS experience in Objective-C and early Swift.
- Built social networks and e-commerce platforms.
- Learned core iOS principles and App Store deployment.

|                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

§ 06 Honours

- 01

Built a food-delivery platform serving **20M+ users** across Saudi Arabia and Bahrain.
- 02

Built a ride-hailing ecosystem serving **15M+ users** in Saudi Arabia.
- 03

Architected a **full-stack ride-hailing platform solo** — iOS + NestJS/PostgreSQL with OTP auth, sessions, rate limiting, and audit logging.
- 04

Led a POS system serving **20k+ restaurants** and cafés.
- 05

**10+ apps** published on the App Store, used by millions across MENA.
- 06

**30+ iOS projects** delivered across a 12-year career.
- 07

Early Swift adopter (WWDC 2014) and early SwiftUI adopter (WWDC 2019).
